ABOUT ME

R&D Engineer with 2 years of hands-on experience in electronic circuit design, testing, debugging, and product development. Strong knowledge of analog and digital electronics with practical laboratory experience. Proficient in component selection, schematic analysis, prototype development, and failure analysis. Experienced in using test and measurement instruments such as oscilloscopes, multimeters, and signal generators. Seeking an R&D role to contribute to the development of innovative, high-quality, and reliable electronic products.

EDUCATION

E & TC ENGINEERING

Dnyanshree Institute of Engg , Satara
2024

HSC

YCIS , Satara
2020

SSC

New English School, Satara
2018

SKILLS

- Analog & Digital Electronics
- Hardware Testing & Validation
- PCB Schematic Review
- Power Electronics & SMPS (Basics)
- MOSFET & BJT Circuits

EXPERTISE

- High-Voltage Testing
- Fault Analysis & Debugging
- Prototype Testing
- Documentation

WORK EXPERIENCE

JAYSHREE ELECTRONICS PVT LTD, BHOSARI

Research & Development Engineer ————— **NOW-2024**

- Performed hardware testing and validation of electronic circuits and R&D; prototype boards
- Conducted SMPS and high-voltage testing under various load conditions
- Tested and troubleshoot MOSFET and BJT-based circuits
- Reviewed PCB schematics to identify design and component-level issues.
- Used CRO/DSO, LCR meter, and multimeter for signal analysis and fault detection.
- Documented test results and supported corrective actions.

Key Features

- Tested and validation multiple R & D prototype boards
- Identified and resolve hardware features
- Improve circuit reliability by suggesting design level
- Collaborated with cross-functional teams to support product development and continuous improvement.
- Designed, tested, and validated electronic circuits for R&D and prototype development.

PROJECT / R&D; EXPOSURE

- Capacitive / Optical Proximity Switch
- Hardware testing and validation of proximity switch circuits.
- Signal analysis, sensitivity testing, and fault debugging.
- PCB schematic review and prototype verification.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I understand that any misrepresentation or false information may result in disqualification.
