

TANISHA SHINDE

Electronics & Telecommunication Engineer

Satara - 415002

+91 9370733078

tanishasshinde@gmail.com

PROFESSIONAL SUMMARY:

Electronics Engineer with 1+ year of R&D experience in circuit design and testing. Looking to contribute to innovative projects and grow in a dynamic organization.

WORK EXPERIENCE:

R&D Engineer - Jayshree Electron Pvt. Ltd- Bhosari, Pune (June 2024 - Present)

- Designed and developed power ICs from prototype to production with high quality
- Conducted performance testing, validation, and troubleshooting per industry standards
- Prepared technical documentation, design reports, and compliance records

Training [Internship] - Aptron Technical Pvt. Ltd - Satara 2024

- I have done 2-month internship here involve the basic concepts of microcontroller and microprocessor and the Embedded C programming & interfacing, foot printing etc

SKILLS

✓ **Programming Languages** : Embedded C ,C language ,Python programming

✓ **Simulation Tools / Software**: ORCAD, Proteus, MPLAB, Keil uVision5, KiCad 9.0

PROJECTS:

Automatic Rice Crop Transplantation Machine (2024)

Tools Used: MPLAB, Proteus

- Components: PIC16F877A, L293D Motor Driver, ESP8266 Wi-Fi Module
- Description: Automated rice transplanting system controlled via smartphone using Wi-Fi.

Temperature Display Unit (2023)

Tools Used: Keil uVision5, Proteus

- Components: Temperature Sensor, 7-Segment Display, Microcontroller (8051/PIC)
- Description: Measures and displays ambient temperature using a microcontroller-based system.

Wide Bandpass Filter (2022)

Tools Used: ORCAD, KiCad

- Components: Operational Amplifiers (Op-Amps)
- Description: Designed an active wide bandpass filter using high-pass and low-pass stages.

EDUCATION:

2021 - 2024 | Dnyanshree Institute of Engineering & Technology, Satara

B. Tech in Electronics & Telecommunication Engineering - 74%
